

## Update Development Activities

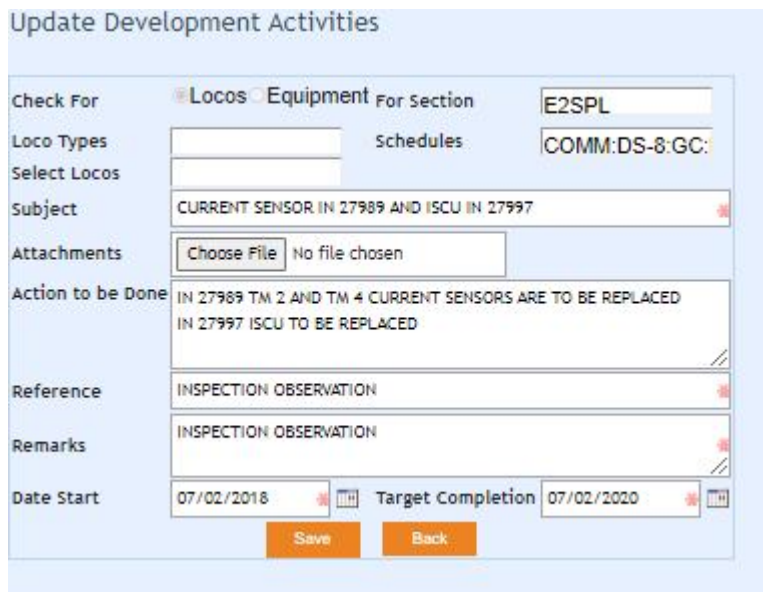

Given provision for PPIO to update or correct the key parameters of the loco under 'corrections' main menu.

- Click on Update Development activities under Correction Menu.
- Update Development activities page displays

The screenshot shows the 'Update Development Activities' search interface. It features a header with the title 'Update Development Activities'. Below the header, there are five main search criteria: 'Type', 'Status', 'Section', 'From', and 'To'. Each criterion has a corresponding input field. 'Type' and 'Status' are dropdown menus currently set to '--All--'. 'Section' is an empty text box. 'From' is an empty date field. 'To' is a date field containing '30/08/2022'. To the right of the 'To' field is a 'Go' button.

- Select Type, Status, section, from date and to date
- Click on go option.
- Click on Check No link to update Development activity details.

The screenshot shows the 'Update Development Activities' form with detailed information. The form is titled 'Update Development Activities'. It has several sections: 'Check For' with radio buttons for 'Locos' (selected) and 'Equipment', and a 'For Section' field containing 'E2SPL'; 'Loco Types' and 'Schedules' fields, with 'Schedules' containing 'COMM:DS-8:GC'; 'Select Locos' field; 'Subject' field containing 'CURRENT SENSOR IN 27989 AND ISCU IN 27997'; 'Attachments' section with a 'Choose File' button and 'No file chosen' text; 'Action to be Done' field containing 'IN 27989 TM 2 AND TM 4 CURRENT SENSORS ARE TO BE REPLACED IN 27997 ISCU TO BE REPLACED'; 'Reference' field containing 'INSPECTION OBSERVATION'; 'Remarks' field containing 'INSPECTION OBSERVATION'; and 'Date Start' (07/02/2018) and 'Target Completion' (07/02/2020) date fields. At the bottom, there are 'Save' and 'Back' buttons.

- Enter all the details and click on save option.
