

User Management

User management is used to manage all the users modifications such as Roles, Users, Staff. User-interlinked changes can be done here.

1. Roles:

In Roles we can add, view, update, deleting of a module can be done using roles.

The image shows the 'Managing Roles' interface. At the top, there is a title 'Managing Roles' and a link 'Add Roles'. Below this, there are search filters: 'Func. Location' with a dropdown menu showing 'BSL', 'Section' with a dropdown menu showing '--All--', and 'Role Code' with an empty text input field. A 'Go' button is located to the right of the 'Role Code' field.

a) View Roles

- Click on Roles under User management Module.
- Managing Roles page displays.
- Select Func. Location, Section.
