

## Delete Loco Wheel Measurements

- User shall click on ‘Wheel measurements’ from ‘Corrections’ side menu.
- ‘Managing Wheel Measurements’ screen shall be displayed.
- Based on Technical section supervisor privileges the update link and Delete options shall be enable.
- Technical section supervisor has two provisions for wheel measurements i.e.
  - Delete
  - Update
- For these two cases Technical section supervisor shall collect field’s data to filter the wheel measurements data
  - Loco
  - Schedule
  - Section→this filter shall be disable
  - Range from (Dia range)
  - Range to (Dia range)
  - Measurement date from
  - Measurement date to
- While click on ‘Go’ button based upon selected filters data the section specific wheel measurements shall be displayed.

### Delete:

- Every row shall have delete image buttons to delete the data.
- Technical section supervisor has provision to delete only single data of wheel measurements at a time.
